5 Stepping into the job world

7 Review

7 b Language in use (p. 88)

1 They wanted to know which famous women had made important contributions to technology.
2 They asked how the role of women in technical fields had changed over time.
3 They wondered if more changes would be needed to encourage women to apply for leadership positions.
4 They asked if many women worked in engineering and IT.
5 They wanted to know whether the number of women in technical fields would continue to grow.
6 They wondered if women had had equal opportunities in technical careers 50 years ago.
